# TABLE OF CONTENTS

- 4 Introduction
- 6 Adapt
- 16 Divide
- 20 Tops
- 24 Note

## **YOUR FURNITURE NEVER LOOKED SO GOOD**

The glassboard has come off the walls and entered into the workstations, conference rooms, and other open areas in need of fresh collaboration tools. The high design of Clarus furniture glass adds unmatched functionality and inspiration to any space.

# ADAPT

## BEAUTIFUL & FUNCTIONAL

The Clarus design team engineered Adapt to be the most minimal, turnkey solution for creating motivational work environments with stunning writable surfaces.

Whether you're looking for a simple office upgrade or building out your workplace from the ground up — Adapt adds a level of functionality, colour, and texture to any space.

## FROM NEUTRAL

The dated workstation could desperately use a breath of fresh air. It's time to update office furniture to serve the needs of the modern, mobile workforce.

## TO NOTEWORTHY

Adapt is designed to instantly enhance productivity and boost the design aesthetic. Breathe new life into old office spaces, and express your brand throughout the workplace.

## **YOUR GLASS, YOUR WAY**

Help employees get organized. Build out a calendar, keep track of appointments, jot a to-do list, or tally inner-office contests — Adapt's uses are endless.

## ADAPT YOUR SPACE

People love Clarus on walls and wheels – why not add it to the workstation? Adapt allows designers to transform a space, increase function, and enhance design with the simple elegance of glassboards.

### SPECIFICATIONS

- Compatible with most furniture systems
- Best in-class lead times
- All mounting hardware included
- Magnetic and non-magnetic options available

### COMPATIBILITY

Adapt is compatible with most systems from the world's leading furniture manufacturers. Contact us to discuss an Adapt solution tailored specifically to your furniture system and office needs.

Check our growing list of compatible systems at [clarus.com/adapt](http://clarus.com/adapt).

# DIVIDED

## DIVIDE TO UNITE

Open offices create the ultimate collaborative environment, but can also bring unwelcome distractions and remove the natural privacy employees need. Divide offers the best of both — minimal and useful space division, with a naturally beautiful design style. And of course, total customisation.

### SPECIFICATIONS

- Custom match any colour to coordinate with existing furniture systems
- Custom sizing to fit your furniture
- Transparent or opaque — let design decide your product, not manufacturing limitations
- Magnetic and non-magnetic options available

# TOPPS

## ELEGANCE WITH A PURPOSE

The versatility of a writing surface and the beauty of colourful Clarus glass — all in a tabletop. Tops bring a new level of collaboration and visual communication to any meeting. Communicate a concept, assign seats, or jot down a question to remember at the end of a presentation — the possibilities are endless with a Tops writing surface as your table.

### SPECIFICATIONS

- Custom shapes for any table or desk surface
- Made from 12 mm Clarus glass
- Compatible with any marker, even permanent
- Over 150 standard colours
- Custom colour matching available
- Optional hardware — contact Clarus to discuss

# NOTE

## THE PERFECT COMPLEMENT FOR YOUR WORKSTATION

Keep a to-do list on-hand or doodle a new design at your desk. Elevate the productivity of the common workstation with Note glass by Clarus.
