

FLIP

Glass that moves

clarus⁷

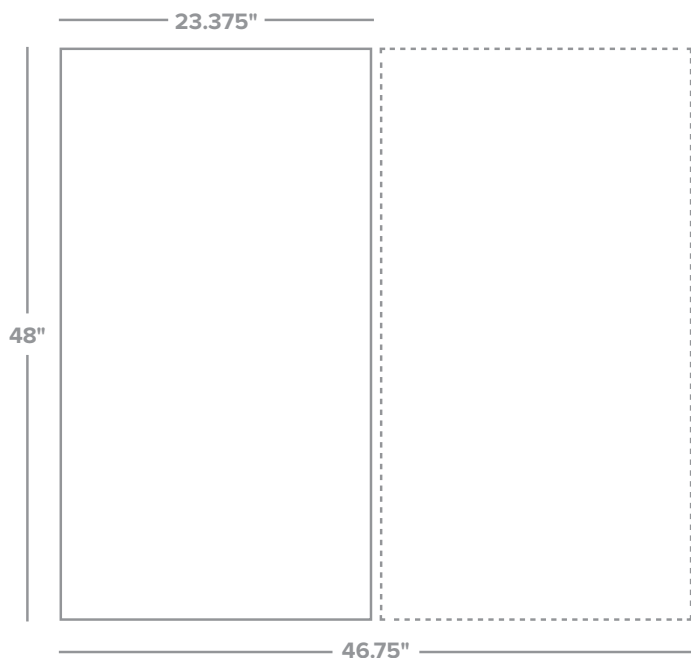

OVERVIEW

Why limit a glassboard to one side? Re-think the way work spaces use writable surfaces with Flip by Clarus®. Flip allows both sides of a Clarus board to be utilized for a heightened design aesthetic and elegant functionality.

DIMENSIONS

The patented design of Flip features self-leveling hardware and magnets. That means your board will fit snug to your wall, even if it is hung on an uneven surface.

COLORS BY CLARUS™
