CLARUS® FAMILY OF BRANDS

clarus¹

Founded on innovation, not imitation, we maintain that guiding principle for customers who wish to associate themselves with the best. Where others follow, we lead through clarity of focus, the embrace of technology and the flexibility to create glass surfaces that deliver a lasting impression. Be it with words or visual designs, Clarus shines through to bring thoughts, experiences and dreams forward for others to see.

clarusclassroom¹

Backed by the innovative technology that led Clarus to pave the way for the future of visual communication, our classroom system was inspired to accommodate all the ways a teacher needs to communicate information. Projectable, writable, tackable, and portable in one single modular platform, Clarus Classroom™ keeps schools ahead of evolving education models. With our 20 year warranty, teachers and administrators will enjoy peace of mind knowing they are partnering with the leader in visual communication boards as they inspire the next generation of thinkers, doers, creators, and leaders.

claroultra¹

Glass and Porcelain Steel whiteboards – as simple as they are – create a powerful, unconstrained workspace that enables a group of people to communicate, think, collaborate, build, and solve problems. With attention to design and quality, claroultra™ dry erase whiteboard products provide you with an affordable presentation aide solution for any size project. Whether you are upgrading to glass or simply refreshing your existing whiteboards, claroultra has a whiteboard to fit your needs.

Collaborative communication, idea sharing, and decision making are the emphases of today’s workplace no matter the industry. Clarus, Clarus Classroom, and claroultra visual display products and accessories give you a writing and projectable viewing experience that furthers your success no matter your communication style. Let the leader in glass fabrication give you peace of mind when it comes to bringing your design ideas to life.

Ideas Communicated™

THE CLARUS ADVANTAGE

SUSTAINABILITY

Clarus is the standard for environmental sustainability. From the quality of our raw materials, to responsible manufacturing processes, we are passionate about our commitment to a more sustainable future.

CUSTOMIZATION

Our glass printing technology allows us to custom print anything you desire. From custom shapes and sizes to custom color matching, the sky is the limit for you and your glassboard.

AWARD-WINNING

With unmatched elegance, customization, and functionality, Clarus products have set themselves apart with 10+ industry awards. Clarus is the leading glassboard manufacturer and solutions innovator.

LOW IRON

Clarus invests time, energy, and resources to purchase low iron and low nickel sulfide glass from a highly engineered float glass manufacturer in the USA. By removing 90% of residual iron, the green tint of regular glass is eliminated, so your board is clear with clean colors and graphics.

COLORS

Customize your glass to match your branding with Colors by Clarus™, or provide your own unique color for precision matching. Clarus has the tightest color accuracy tolerances in the industry due to mixing our own colors. We also catalog customer colors, feature 150 standard colors and can match Sherwin Williams® and Benjamin Moore® color palettes.

FAST LEAD TIMES

Need glass in a hurry? We've got you covered. We'll ship your favorite glassboards in 2 days with our Quick Ship program.

INNOVATION

The latest innovations, such as projection glass and TruMount™, partnerships with tech-forward companies like Logitech®, and teleconference software integration are a central focus in order to continuously fulfill communication needs.

DESIGN

With sleek tempered glass five times stronger than normal glass, a frameless design, and a polished edge, our products have been engineered with all the best features to truly surpass the competition.

BACTERIA RESISTANT

Our glass is non-porous which inhibits the growth of bacteria, providing an extra layer of hygienic protection – all without affecting the aesthetics of your environment.

DURABILITY AND SAFETY

Clarus glassboards are exceptionally durable, never stain or ghost, and last a lifetime. The fire and seismic ratings & adhesion testing on our products have truly set us apart so you don't have to worry about putting your colleagues at risk.

WARRANTY

We stand behind the superiority of our products with a best-in-the-business 20-year warranty, helping customers enjoy the peace of mind of knowing that the Clarus quality they love will last.

CUSTOMER SERVICE

Our dedicated Account Services team will walk you through details for the most efficient way to deliver your order, and will readily provide file format changes or concept design ideas for your project.

SUSTAINABILITY

From the quality of our raw materials, to responsible manufacturing processes and a goal of net zero waste through recycling – Clarus aims to be the leader in making communication products that elevate your indoor space without harming the environment.

We recycle the water that is used to polish the edges of our glassboards, and filter out glass particles that are created during the process, saving roughly 30,000 gallons of water each day.

In our commitment to a more sustainable future, our products offer EPDs, Red List Free Declare labels, and SCS Indoor Advantage Gold certifications to support project teams in achieving their green building goals for now and generations to come.

To learn more, specifiers can find our products at mindfulmaterials.com, or Clarus.com/environmental-certifications.

We are committed to developing products that holistically support:

- Climate Health
- Human Health
- Ecosystem Health
- Social Health and Equity
- A Circular Economy

Clarus is autonomously verifying and communicating transparency with our product lines through Environmental Product Disclosure. This certification compares information about the life-cycle environmental impact of products in a credible way.

Clarus voluntarily discloses our product information through our Declare labels. We want to help you specify products that can be trusted and meet the requirements of leading green building standards.

Clarus strives for our interior products to be low VOC emissions with the most transparent indoor air quality (IAQ) standard for furniture and building materials. The Indoor Advantage and Indoor Advantage Gold standard align with both ANSI/BIFMA M7.1 and X7.1 and CA 01350.

COLOR MANAGEMENT GROUP (SAMPLES)

The Color Management Group (CMG) is an entire mini Clarus inside the factory, complete with its own polisher and printing capabilities that push out hundreds of custom samples every day – totalling to around 100,000 samples a year. From producing, washing, quick checking, and cleaning every piece, to creating custom print and ColorDrop™ samples, our CMG team has a hand in almost every project Clarus creates.

Our team is ready to provide samples of any kind, for any project, to bring peace of mind to customers so they can see and feel the high quality Clarus glass that will be used in their communication board. Our CMG team goes beyond the call of duty for our customers to elevate our brand, provide white-glove service, and put accurate samples in the hands of every interested client.

CUSTOMIZE & BESPOKE WITH CLARUS

As the leaders of the glassboard industry, Clarus is initiating a revolution – changing the way manufacturers serve customers and emphasizing how every detail of production, customization, and installation establish the value of our brand. The award-winning Clarus brand challenges you to create products that ignite imagination, creativity, and teamwork in every interaction.

That's why we created glassboard manufacturing technology that allows you to customize glassboards in any way, for every imaginable surface. From glassboards that roll from room to room, attach to walls and cubicles, or glide across walls, the function of a Clarus glassboard is established by you – the only limit is your imagination.

And customization doesn't just end with our glassboards – the entire manufacturing process is customized based on project needs and client preference. This ensures our customers are consistently engaged and involved all throughout production from initial concepting all the way through manufacturing and final delivery.

Get started with your custom project with Clarus by contacting our Account Services department.

QUICK SHIP

Your favorite glassboards shipped to you in just two business days*

Sometimes the need for an incredible writing surface is immediate — our Quick Ship program was created to make you the hero. Qualifying orders* will ship within two business days of a purchase order.

TRUMOUNT™

No wall is perfect. But with the patent-pending TruMount system, installation of your wall-mounted glassboards can run on schedule with precision and ease. The ability to make the adjustments required for imperfect walls without additional holes makes installation a breeze.

DESIGNED FOR EASY INSTALLATION

- TruMount's design and white color allows for easy-to-read laser leveling and blends with the wall
- Laser level line identifies the bottom of the clip
- Two-way level line holder aids in visual leveling
- Designed to allow for easy left or right adjustments for alignment and includes end stops to prevent the board from coming off
- Compact design allows our reps, installers, and dealers to easily carry extra parts
- The all-in-one TruMount solution features breakaway components to prevent the loss of parts

SPECIFICATIONS

- 1" of vertical adjustability in 1/16" increments
- Stackable 1/16" increment break-off shims aid in adjustment in the z-plane
- Composite thermoplastic and polycarbonate materials strengthen the system and lessens the chance of damage to walls and product during installation
- 4-way hanging clip is made from composite materials for strength and to reduce damage to walls during installation

FLOAT™

Clean lines and invisible mounting make Float the perfect glassboard for any space. Our patented TruMount™ system reduces installation time onsite and allows for vertical or horizontal installation. Multiple modification and customization options extend the design of any collaborative environment.

STANDARD

- 1/4" low-iron, tempered, safety glass
- Colors by Clarus™ – CBC-100 Pure White
- Available in both magnetic and non-magnetic finish
- Concealed TruMount mounting hardware and anchors included. Allows for horizontal and vertical mounting

CUSTOMIZATION*

- Custom shapes – circles, triangles, stars – you name it, we can make it
- Custom edging – don't want our standard flat polish edge? We can customize it to whatever you need

**All customizations are quoted on request*

MODIFICATION

- Custom color Match or Colors by Clarus – 150+ colors to choose from
- Matte glass – non-glare glass
- ColorDrop™ – print logos or high-resolution graphics directly on glass
- Bumped corners – softening the glass corners
- Cutouts and notches with radiused interior corners available upon request
- Tight tolerances – the Clarus standard is +/- 1/16"
- Radiused corners – can be radiused to any inch increment
- Surround Frame – 13 Metal frame colors, 3 Timber frame options

DEPTH

The original glassboard that created the industry. Standoff through mounting gives your environment an added touch of hardware elements. Multiple modification and customization options are available.

STANDARD

- 1/4" low-iron, tempered, safety glass
- Colors by Clarus™ – CBC-100 Pure White
- Available in both magnetic and non-magnetic finish
- 1" standoffs included

CUSTOMIZATION*

- Custom shapes – circles, triangles, stars – you name it, we can make it
- Custom edging – don't want our standard flat polish edge? We can customize it to whatever you need

**All customizations are quoted on request*

MODIFICATION

- Custom color Match or Colors by Clarus – 150+ colors to choose from
- Matte glass – non-glare glass
- Clear or frost glass
- ColorDrop™ – print logos or high-resolution graphics directly on glass
- Bumped corners – softening the glass corners
- Cutouts and notches with radiused interior corners available upon request
- Tight tolerances – the Clarus standard is +/- 1/16"
- Radiused corners – can be radiused to any inch increment
- Standoff hardware available up to 2"

SURROUND

Combining the natural beauty of wood or metal finishes with the modern accent of Clarus glass — Surround wraps your Float™ glassboard with an eye-catching frame to present your amazing thoughts and ideas in the most appealing way possible. Multiple frame colors, styles and accessories will complement your selection to make your board just the way you want it.

STANDARD

- 13 Metal frame colors
- 3 Timber frame options

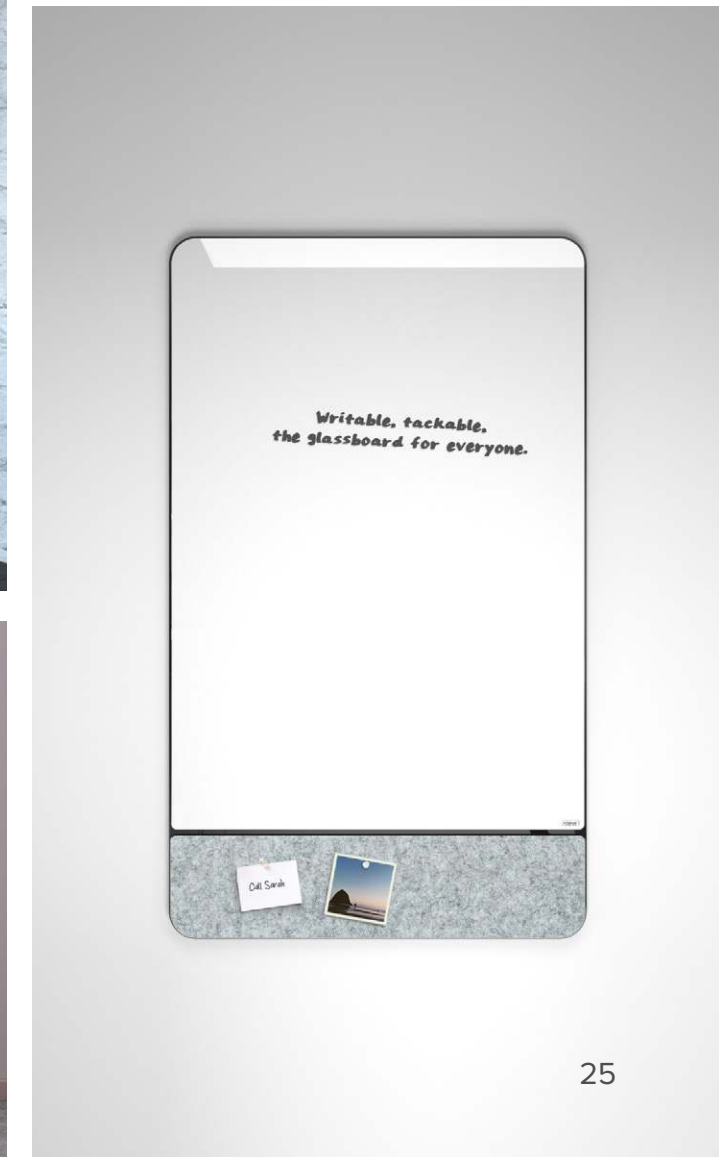

BE! WALL™

The multi-functional glassboard for writing and acoustic panel for tacking photos, notes or any printed information. A perfect board for high-traffic areas to share information and ideas.

STANDARD

- 5/32" low-iron, tempered, safety glass
- Two core finishes - Black or Gray
- Acoustic panel - Marbled Gray
- Non-staining writing surface
- Compatible with any marker, even permanent
- Elegant, large radius corners
- Available in magnetic finish
- Concealed mounting hardware and anchors included
- The Clarus patented TruMount™ hardware allows horizontal or vertical mounting

WALL2WALL

Wrap a single wall, entire office, elevator bank, reception area or any wall to extend your brand and culture. A multi-functional application that serves as a writing surface and high design impact. Direct adhere to your wall simplifies installation.

STANDARD

- 1/4" low-iron, tempered, safety glass
- Colors by Clarus™ – CBC-100 Pure White
- Available in both magnetic and non-magnetic finish
- Direct adhere to wall
- Channel and trim included

CUSTOMIZATION*

- Custom shapes – circles, triangles, stars – you name it, we can make it
- Custom edging – don't want our standard flat polish edge? We can customize it to whatever you need

**All customizations are quoted on request*

MODIFICATION

- Custom color Match or Colors by Clarus – 150+ colors to choose from
- Matte glass – non-glare glass
- ColorDrop™ – print logos or high-resolution graphics directly on glass
- Bumped corners – softening the glass corners
- Cutouts and notches with radiused interior corners available upon request
- Tight tolerances – the Clarus standard is +/- 1/16"
- Radiused corners – can be radiused to any inch increment

FLOAT™ TRANSITION

Float Transition allows you to interchange your graphics, signage, or artwork as often as needed. The proprietary hardware allows for easier mounting on uneven surfaces, and also features spring-loaded pressure points that enable users to utilize graphic inserts of various thicknesses up to 1/4”.

With Float Transition, updates for wayfinding signage due to changing tenants or building renovations become a breeze. Float Transition allows you to switch out the informational insert without having to purchase all new signage. Perfect for airports, convention centers, shopping centers, medical office buildings, industrial campuses, research parks and many more.

STANDARD

- 1/4” low-iron, tempered, safety glass
- Colors by Clarus™ – CBC-100 Pure White

MODIFICATION

- Custom color Match or Colors by Clarus – 150+ colors to choose from
- ColorDrop™ – print logos or high-resolution graphics directly on glass

VIEW™

View projection glass is an evolutionary step in glassboards. As the first-to-market high-definition, glass writing surface that can be projected on, View sets the standard for all projection surfaces to come. With its clean lines, clarity of picture, and beautiful, space-saving design, View serves as the ultimate multi-functional projection surface.

Pairing your View glassboard with the correct projector is critical for optimal performance. If possible, we suggest using an “ultra-short” throw projector for projection clarity instead of “long” or “short” throw projectors, which may cause a bright spot to appear on the surface in some unique cases.

STANDARD

- 1/4” low-iron, tempered, safety glass
- Colors by Clarus™ – 150+ standard colors
- Clear or black anodized aluminum frame

MODIFICATION

- Matte glass – non-glare glass

CUSTOMIZATION*

- Custom size

**All customizations are quoted on request*

GLIDE™

Glide is a fully integrated, sliding glassboard system with concealed hardware, designed to allow sliding glass panels to move smoothly across the face of fixed, wall-mounted panels. Glide's three-dimensional system maximizes existing wall space, providing hundreds of square feet of glass writing surface in one compact design. The patented design makes it easy to keep your ideas flowing without stopping to erase.

STANDARD

- 1/4" low-iron, tempered, safety glass
- Colors by Clarus™ – CBC-100 Pure White
- Available in magnetic finish
- Mounting hardware included

DESIGN DETAILS

- Clarus N-Line Drift Technology – Anti-flex engineering, designed to withstand impact
- Keep Your Fingers Technology – Bumpers prevent sliding panels from touching

HORIZONTAL ORIENTATION

- Any width, from 36" – 96" per panel
- Any height, from 38.5" – 50.5" per panel

MODIFICATION

- ColorDrop™ – print logos or high-resolution graphics directly on glass
- Custom color Match or Colors by Clarus – 150+ colors to choose from
- Matte glass – non-glare glass

DIMENSIONS

- Glide's height and width are dependent on one another – a change in one value will affect the other value

VERTICAL ORIENTATION

- Any width, from 36" – 48" per panel
- Any height, from 38.5" – 98.5" per panel

All Glide glassboards are quoted on request.

BE! MOBILE™

be! Mobile is the mobile glassboard for everyone. By limiting be! Mobile's design options, we've taken the guesswork out of the mobile glassboard. We designed be! Mobile to be the most accessible and affordable collaborative board yet, as it seamlessly integrates into any modern workspace.

STANDARD

- Colors by Clarus™ – CBC-100 Pure White
- 5/32" low-iron, tempered, safety glass
- Elegant, large radiused corners
- Black or white leg finish
- Black or gray core finish
- Black casters

GO! MOBILE™

go! Mobile gives you the freedom to create flexible workspaces on the go. With the option to customize each side of your go! Mobile, you can transform any space into a productive collaborative environment.

STANDARD

- 5/32" low-iron, tempered, safety glass
- Colors by Clarus™ – CBC-100 Pure White
- Available in both magnetic and non-magnetic finish
- Four caster color options – black, white, gray and red

MODIFICATION

- ColorDrop™ – print logos or high-resolution graphics directly on glass
- Custom color Match or Colors by Clarus – 150+ colors to choose from
- Matte glass – non-glare glass
- 13 metal frame colors, 3 Timber frame options
- Acoustic panel – 9mm Clarus acoustic felt available in 14 unique colors* and 5 panel styles

**XL Acoustic only available in Light Gray*

FLEX™ MOBILE

Flex Mobile's wide, strong base gives Flex an Eiffel Tower elegance, giving your workspace an elevated design aesthetic without compromising functionality and stability to the writable glassboard.

STANDARD

- 5/32" low-iron, tempered, safety glass
- Colors by Clarus™ – 150+ standard colors
- Available in magnetic
- Four caster color options: black, white, gray, and red

MODIFICATION

- ColorDrop™ – print logos or high-resolution graphics directly on glass
- Custom color match
- Matte glass – non-glare glass
- 13 beautiful, richly finished color frame options
- Acoustic panel – 9mm Clarus acoustic felt available in 14 unique colors* and 5 panel styles

**XL Acoustic only available in Light Gray*

FLEX™ WALL

Flex Wall is a movable glassboard wall system with a fully integrated, omnidirectional wheel system built into the base. The built-in patented wheel system allows Flex Wall to roll easily from room to room — giving you a wall that is unparalleled in the industry.

STANDARD

- 5/32" low-iron, tempered, safety glass
- Colors by Clarus™ – CBC-100 Pure White
- Available in magnetic
- Side insert panel also available in frame finish color options

MODIFICATION

- ColorDrop™ – print logos or high-resolution graphics directly on glass
- Custom color Match or Colors by Clarus – 150+ colors to choose from
- Matte glass – non-glare glass
- 13 beautiful, richly finished color frame options
- Acoustic panel – 9mm Clarus acoustic felt available in 14 unique colors* and 5 panel styles

**XL Acoustic only available in Light Gray*

ADAPT

A refresh to your office design has never been easier. With Adapt, you can bring a refreshing, new look to outworn cubicles, and add height, customized logos, and privacy to any space. Whether you’re looking for a simple office upgrade or building out your workplace from the ground up — Adapt adds a level of functionality, color, and texture to any space.

STANDARD

- 1/4” low-iron, tempered, safety glass
- Colors by Clarus™ – CBC-100 Pure White
- Available in both magnetic and non-magnetic finish
- Mounting hardware included

MODIFICATION

- ColorDrop™ – print logos or high-resolution graphics directly on glass
- Custom color Match or Colors by Clarus – 150+ colors to choose from
- Matte glass – non-glare glass

COMPATIBILITY

Adapt is compatible with many leading office furniture manufacturers. Our design team has taken the time to engineer minimal and turnkey mounting systems for glass panels.

Contact us to discuss a solution for your Adapt system. Check our growing list of compatible systems at clarus.com/adapt.

BE! SHIELD™

be! Shield is elegantly engineered to add a seamless layer of non-porous, tempered glass protection without affecting the aesthetics of your environment. Additionally, our cut-out option allows for customers to seamlessly hand off papers or documents through the be! Shield. No matter if you use it for division, safety, collaboration, or all of the above, be! Shield is for the health conscience work initiative.

STANDARD

- 1/4" – 3/8" low-iron, tempered, safety glass
- Elegant, large radiused corners
- Frameless glass
- Four standard leg configurations

MODIFICATION

- Clarus window cutout can be added to any be! Shield for an additional cost

CUSTOMIZATION

- Custom sizes of be! Shield can be quoted on request

LEG CONFIGURATION GUIDELINES FOR CUSTOM SIZES

- 12" wide leg supports 34" height and lower
- For screens above 34" up to 44", you will need the 17" leg configuration to ensure proper stability
- For shallow counters, consider using our 12" leg configuration (maximum screen height is 34")
- No higher than 44"
- No longer than 60" with only two sets of legs
- No more than 14.5 square feet with only two sets of legs
- No less than 12" in height
- Glass sits 1/4" above the mounting surface for easy cleaning and protection of surface

DIVIDE™

Divide boasts clean lines that won't harm your existing office furniture. Because no drilling is involved and all hardware screws are strategically hidden inside the clamps, Divide seamlessly integrates into your existing furniture. Reduce visual distractions in your office, all while maintaining the overall aesthetic. Using this new patent pending, state-of-the-art clamping system, Divide can be easily installed at the back, side, or along the center of a desk, giving you the freedom to accommodate power cords, monitor arm attachments, and more.

STANDARD

- 1/4" – 1/2" low-iron, tempered, safety glass
- Colors by Clarus™ – CBC-100 Pure White
- Mounting hardware included
- Frameless glass

MODIFICATION

- Transparent or opaque options available
- Custom color Match or Colors by Clarus – 150+ colors to choose from
- Available in both magnetic and non-magnetic finish

All Divide glassboards are quoted on request.

Center Clamp

Side Clamp

TABLE TOPS

The versatility of a writing surface and the beauty of colorful Clarus glass — all in a tabletop. Tops bring a new level of collaboration and visual communication to any meeting. Communicate a concept, assign seats, or jot down a question to remember at the end of a presentation. You can add glass to any surface — the possibilities are endless with a Tops writing surface as your table.

STANDARD

- 1/2" low-iron, tempered, safety glass
- Colors by Clarus™ – CBC-100 Pure White
- Available in both magnetic and non-magnetic finish

MODIFICATION

- ColorDrop™ – print logos or high-resolution graphics directly on glass
- Custom color Match or Colors by Clarus – 150+ colors to choose from
- Matte glass – non-glare glass
- Naturals prints available
- Cutouts and notches with radiused interior corners available upon request

Table Tops are quote-on-request and manufactured with standard MDF specifications as follows: 1/4" glass has a 1/2" MDF undercut recess, 1/2" glass has a 2" MDF undercut recess. If you require different MDF specs, your project will go through the custom process.

RISE WALL

Customers need a wall that is functional and writable on both sides. Rise serves as an entire wall and is used to create rooms with writable glass as the walls. With endless customization and high design, you can create double the writing surface with our laminated glass products.

STANDARD

- Low-iron glass
- Laminated glass panels
- Colors by Clarus™ – CBC-100 Pure White
- Available in magnetic finish
- Thicknesses available: 1/4”, 5/16”, 1/2” and more

MODIFICATION

- ColorDrop™ – print logos or high-resolution graphics directly on glass
- Custom color Match or Colors by Clarus – 150+ colors to choose from
- Three opacities available: opaque, transparent, and translucent
- Matte glass
- Custom sizes

All Rise Walls are quoted on request.

MODIFICATIONS

COLORS BY CLARUS™

Colors by Clarus (CBC) is a proprietary, glass color-coating technology developed by the Clarus Design Studio. This blend of high-tech equipment, along with our detail-oriented hand-craftsmanship allows designers, specifiers, and end-users to create a beautiful Clarus board with any color imaginable. When you choose your colors with Clarus, your color selections are cataloged so that future glass orders will accurately match your previous selections. CBC can match to Sherwin Williams® and Benjamin Moore® color palettes.

- Directly adheres to any magnetic Clarus glassboard

clarusclassroom¹

CLARUS CLASSROOM

THE ALL-IN-ONE VISUAL DISPLAY SYSTEM FOR EDUCATION

Classroom is the advanced visual communications display system that transforms any classroom into a flexible educational space for the next generation of thinkers, doers, creators, and leaders. This modular, patent pending platform offers multiple functions in one single system, allowing teachers the freedom to customize their teaching environment.

PROJECTABLE

Porcelain whiteboards are ultra-smooth and offer significantly less distortion from light reflection for better projectability. This helps you to avoid translucent, washed-out images and improves the projection viewing experience.

CONFIGURABLE

Porcelain steel boards come in three sizes, configurable in a 12', 14' or 16' system. You can also just purchase additional Portable Snap Fit™ packs for your system as needed.

FLEXIBLE & PORTABLE

The Portable Snap Fit™ System can be used on the wall, moved around and in between classrooms, or in the hands of the student.

LIGHTWEIGHT & ERGONOMIC

The Portable Snap Fit™ Board is movable and lightweight. It effortlessly snaps in and out of place using the patent-pending rail system.

504 & IEP ACCOMMODATING

Clarus Classroom products meet the requirements of official 504 and IEP accommodations, aiding in the education of students with special needs and specific learning challenges.

TACKABLE

As an option, you can have a tackable area added on to your board for posting notes, artwork or other items for the class to see.

MAGNETIC

All porcelain wall boards are magnetic, which can hold any magnetic accessory.

WRITABLE

In addition to being able to project onto the board, you can also write on it while projecting. This allows teachers to call out specific areas of a projected image in real time with students.

BACTERIA RESISTANT

Our porcelain steel is non-porous which inhibits the growth of bacteria, providing an extra layer of hygienic protection – all without affecting the aesthetics of your environment.

NON-STAINING

Clarus porcelain steel boards are exceptionally durable and never stain or ghost.

20 YEAR WARRANTY

We stand behind the superiority of our products with a best-in-the-business 20 year warranty, helping customers enjoy the peace of mind of knowing that the Clarus quality they love will last.

CLASSBOARD

Classboard is the core component of our Clarus Classroom system. Writable, projectable, magnetic, tackable, and configurable, its innovative design offers all of the functions a teacher needs in one singular system.

This visual display system gives educators the freedom to project and write at the same time, fitting any learning style and classroom setup. With 5 patents on Classboard, our ergonomic system has safety features built into the design and engineering, meaning students and teachers alike can take advantage of the simplicity and protection.

MAGNETIC: All wall porcelain steel boards are magnetic

SYSTEM RAIL: Anodized aluminum

SYSTEM FRAME: 3/8” Gray ABS

PORCELAIN STEEL:

- 4’ x 4’
- 4’ x 6’
- 4’ x 8’

TACK BOARD:

- Dimensions: 4’x4’
- Color: Heathered Gray

SLAT WALL:

- Dimensions: 4’x4’
- Color: Gray

Classboard comes in three sizes, configurable in a 12', 14' or 16' system. All Classboard systems are quoted on request.

PORTABLE SNAP FIT™

PORTABLE. LIGHTWEIGHT. SAFE.

This revolutionary product puts the power back in the hands of teachers and students with the ability to transform a sliding wall dry erase board to a free-standing and portable easel. With Portable Snap Fit™, teachers now have the perfect tool for collaboration and breakout groups, and can ensure equal participation and accountability for today’s learning protocols. And when you no longer need it to be portable, it easily and safely snaps back onto the Classboard, consolidating space in the classroom.

FEATURES:

- Dimensions: 48”x30”
- Legs: Gray powder coated aluminum
- Non-magnetic
- Corner Safety Guards for impact reduction
- Weight: approximately 16 lbs.

All Portable Snap Fit™ boards are quoted on request.

claroultra⁷

CLAROULTRA™

Glass and Porcelain Steel whiteboards – as simple as they are – create a powerful, unconstrained workspace that enables a group of people to communicate, think, collaborate, build, and solve problems. With attention to design and quality, claroultra dry erase whiteboard products provide you with an affordable presentation aide solution for any size project. Whether you are upgrading to glass or simply refreshing your existing whiteboards, claroultra has a whiteboard to fit your needs.

GLASS

With sleek tempered glass five times stronger than normal glass, a frameless design, and a polished edge, our products have been engineered with all the best features to truly surpass the competition. By removing 90% of residual iron, our 4mm glass eliminates the green tint of regular glass, so your thoughts and ideas are always communicated clearly.

PRODUCT FEATURES

- 4mm low-iron glass
- Focus White
- Magnetic
- Available in Z-Bar mount or edge grip standoff hardware

3 SIZES AVAILABLE

- 4' x 4'
- 4' x 6'
- 4' x 8'

CLARO™ MOBILE

Claro Mobile is a bacteria-resistant, non-porous mobile glassboard that serves a multitude of applications. Whether you use it as a 2-sided collaborative writing surface or as a temporary space divider, you'll maintain the integrity of your open-concept office by not impeding the sightline from one end of your workspace to the next. With a four-wheel base, Claro Mobile is adaptable and can be moved around to any location, making it easy to separate spaces anywhere in your facility.

PRODUCT FEATURES

- Size: 40”w x 70-1/16”h x 21”d
- Leg finish available in black and white
- Black casters
- Available with or without casters

PORCELAIN STEEL

Our Porcelain Steel boards are a cost-effective and ready-to-ship option, ensuring top performance for years to come. With magnetic and projection capabilities, these non-porous boards won't stain, ghost, scratch, or dent, and are backed by an impressive 25 year warranty.

PRODUCT FEATURES

- Silver anodized aluminum frame and tray
- Fixed to wall by concealed hangers
- Works with projection
- Resistant to dents and scratches
- Non-porous—won't stain or ghost
- Magnetic
- Wear-resistant, bacteria-resistant, and chemical-resistant

3 SIZES AVAILABLE

- 4' x 4'
- 4' x 6'
- 4' x 8'

Access Clarus product information instantly on My Resource Library's vast online database.

MATERIAL BANK

Overnight samples are available to ship directly to you — so no time is wasted when finding the best solution for your projects.

CET serves as an online platform that digitally houses our products, allowing dealers and designers to specify Clarus products in 3D designs with the click of a button.

Please call Account Services at 877.783.0104 or email info@clarus.com to get started today!

At Clarus, quality is in our DNA. Our passion for excellence in manufacturing extends throughout the entire customer experience. Every order is important to us. These terms and conditions are hereby incorporated into every order and all products sold by Clarus Glassboards.

ACKNOWLEDGMENT

Clarus will send an acknowledgment email for each order. When you receive the acknowledgment, please check it for accuracy. It is the customer’s responsibility to contact Clarus immediately regarding any discrepancies or inconsistencies between the original order and the one in the acknowledgment email. All orders are placed into production upon final acceptance of the order by Clarus. Estimated ship dates are included within the order acknowledgment.

ORDER PROCEDURE

Clarus is not liable for orders that cannot be accurately fulfilled due to incomplete or inaccurate information provided by the customer or the customer’s authorized agent. Clarus will not begin production of an order until all required information is received.

PRICES

Values within the current price guide are shown at list price and apply to standard products only. Storage, sales tax, custom charges, and any installation charges are not included in the price guide quotes. We reserve the right to modify prices without prior notification.

SALES AND USE TAXES

In jurisdictions where Clarus has an established Sales & Use Tax Registration, Clarus will charge any applicable taxes on all orders by the rate and requirements of the local jurisdiction. A verifiable and applicable tax exemption or resale certificate is required by the receiving customer if the customer claims exemption from sales tax on any orders. Exemption or resale certificates must be received prior to the order’s invoice for taxes to be excluded. In jurisdictions where Clarus does not have a Sales & Use Tax Registration, and therefore does not collect sales tax, the customer is responsible for collecting and remitting all applicable Sales and Use taxes directly to its taxing authority.

TERMS

All new customers are given an initial credit limit at the discretion of Clarus Management. Customers can submit a credit application requesting a higher credit limit. When approved, Clarus will establish an allowable credit limit on an individual customer basis, that will be monitored and updated as needed. The credit terms may include a combination of an allowable credit limit and/or extended payment terms. Past due accounts are subject to a 1.5% late charge per month after 30 days. All credit terms are subject to change without prior notice.

Outstanding payment obligations that are more than 30 days past due will result in a temporary credit hold until the account is current.

DEPOSITS

Clarus reserves the right to require deposits. When customer deposits are required, the deposit must be received by Clarus before Clarus can accept the order.

CANCELLATIONS

All orders are considered firm and cannot be canceled, unless Clarus grants written consent. Clarus reserves the right to apply a cancellation fee on any approved cancellations.

CHANGE ORDERS

Clarus reserves the right to apply additional charges to any orders revised after manufacturing has begun. Additions or changes to approved orders may be subject to a postponement of shipment.

SHORTAGE AND DEFECT CLAIMS

Any shortage claim must be reported within 24 hours of shipment receipt. Any defects or errors must be claimed within ten (10) working days after delivery. Failure to report claims indicates full acceptance of product. Claims must be filed prior to installation.

QUOTES

Prices are valid for 60 days and for the quantities listed on the quote request, unless otherwise noted. Any special requests that were not noted on the initial quote may incur an additional fee.

STORAGE

Orders will be shipped when completed. On orders for which the customer is unable or unwilling to take delivery as scheduled, the merchandise may be shipped to storage facilities at the customer’s expense or held in a Clarus facility for an additional fee.

WARRANTY

Clarus warrants that for a period of twenty (20) years from the date of purchase, that the product will be free from defects in material and workmanship. This Limited Warranty extends only to the original purchaser or the first retail purchaser of the product.

If during this twenty (20) year period, the product is defective in materials or workmanship, Clarus will, in its sole discretion, either repair or replace the defective portion of the product. This Limited Warranty does not cover damage resulting from, or in any way attributable to, improper use, storage, shipping, handling, installation, or modification of the product.

SHIPPING

Clarus reserves the right to ship by what is, in the company’s opinion, the best way. The shipping charge is added to the total net cost of all orders. Please contact Clarus Sales for shipping estimates prior to placing an order. Freight surcharges may be added to orders.

Will Call orders are subject to a crating fee. Clarus will notify the customer when the order is ready for pick-up. Clarus maintains title to the goods until such time as the customer picks up and signs for the product, or title is transferred via freight carrier. All other Clarus terms and conditions apply as if the product were delivered, and Clarus reserves the right to charge storage fees for unclaimed product after notification.

Merchandise shipped is F.O.B. factory from Fort Worth, TX. Title of the product passes from Clarus to the purchaser upon shipment of product by Clarus. It is the responsibility of the purchaser or consignee to report to the carrier promptly upon receipt, and to settle with the carrier any subsequent claims for loss or damage.

If shipment arrives damaged or short, you should first inspect all cartons/crates immediately and note any visual damage or shortages on the delivery receipt. The carrier should be notified immediately to inspect the merchandise, and consignee should subsequently file a freight claim. If visual damage is not apparent, sign the delivery receipt “No Visual Damage.” This allows recourse for a concealed damage claim. Claims for freight damage, concealed or otherwise, must be made within ten (10) days of the original delivery date.

Failure to make claims against designated carrier within ten (10) days constitutes as acceptance of the merchandise and a waiver of any defects, errors, or shortages discovered upon inspection.

Shipping dates mentioned on the order confirmation are estimates only. Clarus is not responsible for shipping delays of any kind.

RETURNS

Many Clarus products are made-to-order and may not be returned. Clarus reserves the right to refuse return of custom-made or specialty products. If Clarus chooses to accept a return, merchandise must be returned unused and properly packaged in its original shipping carton. Products may only be returned with written permission from Clarus. If permission is granted to return a product, a return merchandise authorization (RMA) must accompany the product. Returned products will not be accepted without an RMA. Unless otherwise agreed, the return freight charges are the customer’s responsibility. All returns are subject to a restocking fee at Clarus’ discretion.

PRODUCT ENHANCEMENTS

In our continuous improvement efforts, Clarus reserves the right to institute changes to materials, parts, or design as well as to discontinue models, options, and/or parts without any prior notice.

LIMITATION OF LIABILITY

Claims’ maximum cumulative liability to the buyer shall not exceed the monetary amount of the purchase price of the goods claimed to be defective. This is buyer’s sole and exclusive remedy. Buyer is not entitled to consequential or special damages.
